Closed circuit cooling towers

Options and accessories

Below is a listing of the main Nexus® options and accessories. If your required option or accessory is not listed, look no further than your [local BAC representative](#).

Water Treatment Solutions

Discover the water treatment solutions available for the Nexus Modular Hybrid Cooler.

Electrical panel heater

Protects electronic components in the iPilot™ electrical panel during extremely cold temperatures.

Basin heater package

Our factory-installed heaters prevent the cold water basin from freezing and damaging the unit during shutdown or stanby.

Flanges

Flanges facilitate **pipng connections** on-site.

Positive closure dampers

Use positive closure dampers (PCD) **to minimize the heatloss due to convection** by preventing airflow through equipment that is shut down.

BMS supervision

This option integrates the iPilot™ Control System in your Building Management System (BMS).

Side stream UV system

The side stream UV system provides a factory installed chemical free biocide system, further guaranteeing the operational safety of the Nexus modular hybrid cooler.
