Retrofit Opportunities

Improve maintenance and accessibility

Enhance operational safety

Reduce sound emission

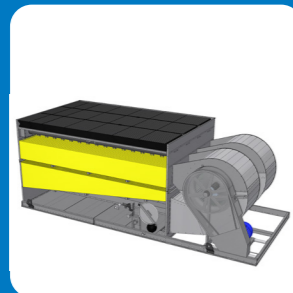

Save water

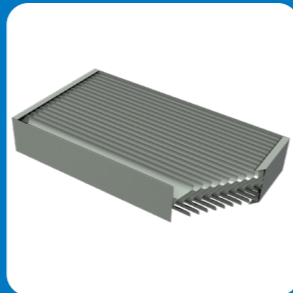

Save energy and increase performance

Increase reliability

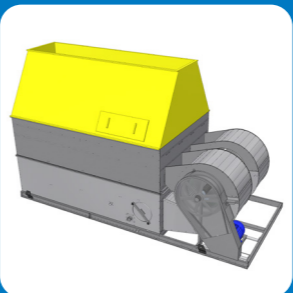

High temperature execution

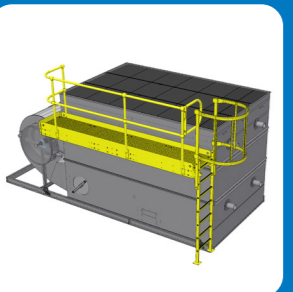

Steel drift eliminators

Oversized motor & Drive set

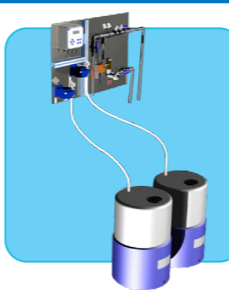

Discharge hood

High level access platform

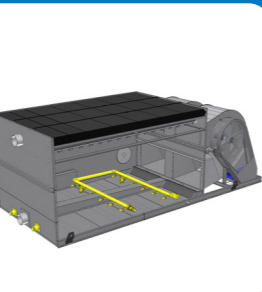

Clean out port

BCP automatic bleed control

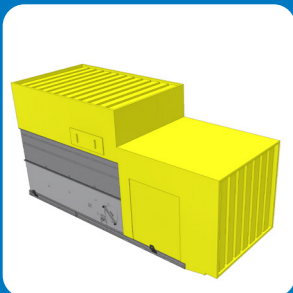

Separator

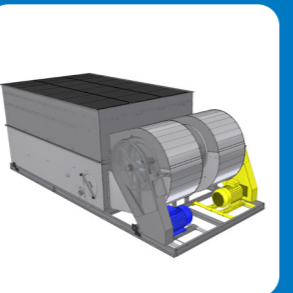

Basin sweeper piping

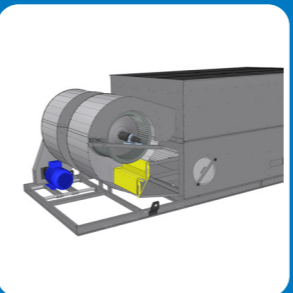

Plume abatement coil

Intake & discharge attenuation

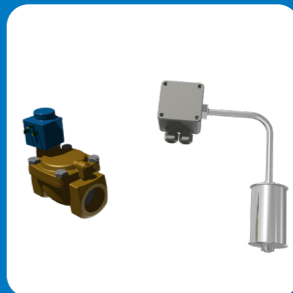

Baltiguard (standby motor & motor base)

Backdraft dampers

Heater package

Electric water level control package
